

**EurosignDS** is a digital signage solution designed for the everyday user. It requires no special knowledge and the user can quickly create, schedule and play professional content on any screen. **DS Players** are fanless digital signage appliances.

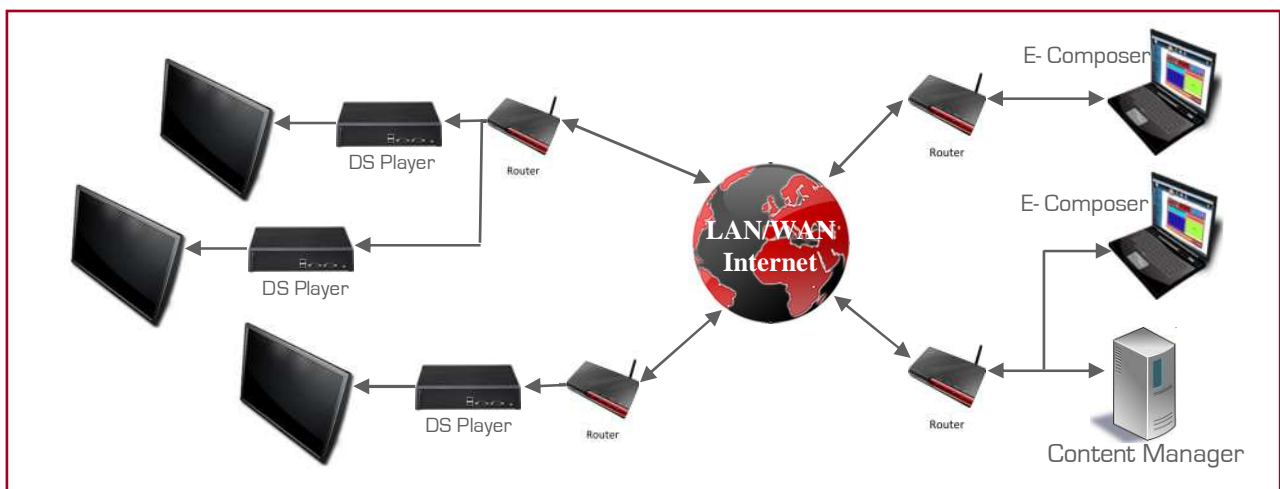

**DS Content Manager** is a server application that allows multiple Eurosign DS players and DS Composer Clients to be integrated in a scalable digital signage network. DS Content Manager includes **DS E-Composer** software, an intuitive application download for creating, and managing content on desktop clients.

*DS Content manager can run on any XP, Vista, Windows 7 or Windows Server Platform.*

## Eurosign DS Content Manager – Easy Player Network Management

- Manage multiple players, composer clients & users
- Create & assign system roles to users
- Assign system permissions to roles
- Manage project access
- Manage project module access (zone permissions)
- Create network schedules
- Create and assign tags to players and channels
- Route projects / schedules to player channels
- Display metrics on players & projects
- Record and display event logs
- Backup server data, projects and schedules

**Captivate your audience - Promote, Inform and Entertain.**

# DS Content Manager – Functionality
